

# Paweł Madlewski

Senior Data Analyst & Analytics Engineer

+48 698 643 610   Kraków, Poland   pmadlewski@gmail.com   pmadlewski

## ABOUT ME

Senior data analyst / analytics engineer with 7+ years of experience across SaaS startups, investment banking and high-volume B2C platforms. I lead end-to-end analytics initiatives – from ELT design and dbt modeling, through defining measurement frameworks to building custom and flexible dashboards – partnering with teams across the business including product, marketing and finance.

## WORK EXPERIENCE

### Senior Data Analyst

Scrive   Jul 2025 – Present   Remote

- Build and evolve data models in **dbt** on top of **Snowflake**, powering product, revenue and marketing analytics for the combined org
- Led selection and roll-out of a self-hosted **Metabase** instance as the merged organisation's BI platform
- Led the analytics side of the **HubSpot** → **Salesforce** CRM migration: rewrote affected **dbt** models and built a **reverse-ETL** from **BigQuery** to **Salesforce** to surface product-usage signals to Sales and automatically create leads
- Ran product analytics workshops with PMs ahead of a major platform relaunch to help define user journeys and success metrics. Designed an end-to-end measurement framework for the project

### Senior Data Analyst

Contractbook   Jun 2022 – Jul 2025   Remote

- **Led analytics for Product-Led Growth** – defined key metrics, built end-to-end funnel dashboards combining marketing attribution with in-product usage data, and designed usage metrics predicting conversion
- **Designed and shipped an in-house ELT pipeline** in **Python** + **Airflow** on **Google Kubernetes Engine**, replacing a third-party ETL tool – syncs 60 production **PostgreSQL** tables (up to 100M rows) into **BigQuery**
- Built and maintained **dbt** data models on top of **BigQuery**, powering analytics and BI datasets across marketing, finance, product and operations
- Built and maintained flexible dashboards in **Metabase**
- Consulted business stakeholders on data collection best practices, marketing attribution, and CRM data (**Hubspot** / **Salesforce**)

### Business Intelligence Analyst

Lottomart   Oct 2020 – May 2022   Remote

- Collaborated closely with various business stakeholders (marketing, finance, product, operations) to scope and build end to end automated reporting solutions
- Developed data warehouse in **Google BigQuery** using scheduled stored procedures and views
- Developed and scheduled **Python** scripts supplementary to the data warehouse (e.g. streaming results of network analysis to BigQuery)
- Created interactive dashboards using **PowerBI** and **Looker Studio**

### Data Analyst

UBS Group AG   Feb 2019 – Sep 2020   Kraków, Poland

- Conducted research on alternative data to support investment decisions
- Developed tools in **Python** for data gathering and process automation
- Ensured quality of data and transformed it into insightful form

## SIDE PROJECTS

### Fractional CMO

SaunyPro (saunyprom.pl)   Jun 2024 – Present   Kraków, Poland

- Founded a custom sauna brand – built the brand identity, visual system and website from scratch
- Run paid acquisition (Google Ads) that drives a consistent stream of customers and revenue
- End-to-end ownership: brand, web, marketing strategy and analytics

**Co-founder**  
Simplify Docs

Mar 2020 – Dec 2021  
Kraków, Poland

- Developed data pipelines to gather public company information from various government APIs using **Python** and **GCP** (Pub/Sub + Cloud Functions + BigQuery)
